

ANATOLI TREBKO

Frontend Developer

Minsk, Belarus | Open to remote work | +375 25 737 5381 | toliktrebko@gmail.com | [LinkedIn](#) | [Habr Career](#) | [Telegram](#)

PROFESSIONAL SUMMARY

Frontend Developer with 3+ years of commercial experience building responsive, performant, and SEO-friendly web applications. Specialized in Vue.js / Nuxt.js and React / Next.js with TypeScript. Proven track record of delivering features end-to-end: from pixel-perfect adaptive layouts to interactive dashboards, payment integrations, and admin panels. Strong collaborator with designers, backend engineers, and QA, with a focus on code quality, performance optimization, and maintainable architecture.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+), HTML5, SQL

Frameworks & Libraries: Vue.js, Nuxt.js, React, Next.js, Node.js, Express, Framer Motion

Styling: SCSS / Sass, TailwindCSS, CSS3, responsive and adaptive layouts, semantic HTML

Tools & Platforms: Git, REST APIs, Stripe, Webflow, phpMyAdmin, MySQL, Pabbly, Kommo CRM

Practices: Cross-browser compatibility, performance optimization, SEO, code refactoring, pixel-perfect implementation

PROFESSIONAL EXPERIENCE

Frontend Developer (Mid-level) — Slowdive

Mar 2025 — Present

Moscow, Russia (Remote)

- Develop and maintain interactive web quizzes: cross-browser responsive layouts, page-load optimization, and client-side logic improvements.
- Designed and implemented the User Account interface, including subscription management, status displays, and payment information.
- Refactored and restructured the project codebase, improving architecture to simplify scaling and feature delivery.

Stack: Nuxt.js, Vue.js, TypeScript, SCSS

Frontend Developer (Mid-level) — Cycle.Dev

Apr 2024 — Mar 2025

Saint Petersburg, Russia (Remote)

Astek (printing & branding):

- Delivered redesign, responsive layout, bug fixes, and performance optimization for the corporate website.
- Built an interactive pricing calculator from scratch, supporting complex parameters: print type, materials, fold count, and post-press finishing.
- Implemented an admin panel for flexible price-list management (adding and editing materials and services).
- Introduced PDF report generation with itemized estimates, reducing time to prepare commercial proposals and minimizing manual errors.

Island Home Phuket (real estate):

- Took over an unfinished project, completed development, and brought it to launch.
- Extended functionality with a dynamic property catalog and a blog module.
- Integrated the website with Kommo CRM via Pabbly to automate lead handling and optimize the sales funnel.

- Built an internal analytics dashboard visualizing key business metrics: sales analysis and property portfolio monitoring (availability, price, area, floor, location).
- Implemented interactive charts, filters, and data-driven analysis tools, giving leadership a convenient decision-making tool.

Cycle Dev (corporate website):

- Owned the user-interface implementation with a focus on performance, SEO, and responsiveness.

Stack: TypeScript, React, Next.js, Vue.js, Nuxt.js, TailwindCSS, SCSS, Webflow

Frontend Developer (Junior) — Zapoluj na Wakacje

May 2023 — Apr 2024

Warsaw, Poland

- Created custom user-facing animations using Framer Motion.
- Tested and debugged web applications to ensure stable production behavior.
- Participated in design and architecture decisions for web projects.
- Integrated frontend with backend services and worked extensively with REST APIs.
- Worked with MySQL databases, configured and managed via phpMyAdmin.
- Integrated Stripe payment system to enable online payments on websites.
- Developed backend services using Node.js, Express, and Nodemailer for email handling.
- Refactored code, improving overall application performance by 30%.
- Implemented form validation and notification systems and improved UX.
- Optimized data loading by 80% through MySQL query and schema improvements.
- Achieved 98% pixel-perfect accuracy, ensuring HTML output matched original design mockups.

Stack: React, JavaScript, TypeScript, SCSS, HTML, semantic & responsive layout, Node.js, Express, MySQL

ABOUT ME

Developer focused on building functional and creative web applications. I collaborate closely with cross-functional teams — designers, backend engineers, and QA — to ensure project quality and consistency. I welcome new challenges and continuously work on developing my skills.
